OF UROLOGY
COURSES

- This unique symposium is specially organized for the busy urologist . it encompasses a wide range of challenging clinical situation that we face in our daily practice. We have gathered interesting cases and clinical conditions from the practice of leading experts. Local and international faculty will present best practice guidelines to deal with these clinical cases.
- There will be series of workshops and courses to cover some contemporary topics in urology.
- The 2 day symposia in Karachi will be followed by one day excursion and meeting in Larkana. There will be an opportunity to interact with local faculty, visit the over 5000 years old civilization remains at mohen jo daro.
